Tunnel in Ore at Jessie Mine Near Smithers

The tunnel being run on the Jessie mine, Hudson Bay mountain is now in thirty feet from the portal. It makes an oblique cross cut of the No. 2 vein a mineralized zone which shows 20 feet wide on the surface. In the tunnel the width is greater and it would appear that the zone is widening as it gains depth.

In the tunnel, mineralization is evident throughout the full length of the adit. In this distance two seams of high grade ore have already been intersected, both of which show in the surface workings, but both of which are better in the tunnel than on the surface. The zone between these rich bands is mineralized throughout and will make low grade ore. A third seam of high grade (the hanging wall band) has not yet been reached in the tunnel. It is the principal band of ore in the No. 2 vein and may be still some ten or fifteen feet ahead of the face of the tunnel. It is the widest and richest of the three bands of good ore shown on the surface above the tunnel.

The work is proceeding in the tunnel steadily with a day shift and a night shift working to speed the development. At the end of the present week examination will be made on the property by W. G. Norrie of Vancouver, the company's consulting engineer, who is now on his way to Smithers by auto.

VISITED MCCONNELL CREEK

Los Angeles Financier Believes Much Gold will be Recovered From the Creek—Not for Poor Man

Mr. Langford of Los Angeles who is interested in the McConnell Creek placer gold diggings, arrived in Smithers the end of last week after a trip to the creek. He stated to the Herald that he was satisfied that a lot of gold would come out of McConnell Creek, but he joined with all others that it is by no means a poor man's country to work in or prospect in. To recover the gold there will require operations in a big way. He saw our old friend Pete Jensen and says that Pete has, in his opinion, the best ground on the creek. He has done a lot of work on it and should be ready to reap some of the benefits before long. Mr. Langford has returned to the south.

BLACK OLSON READY TO WORK

Is Awaiting Instructions From Vancouver to Start on Tredway Property at Dorreen.

"Black" Olson, an old timer of the Klappan Valley, but who has been for a number of years at the mines in Alaska, Stewart and Anxox, has been on his old stamping ground the past few days. He is awaiting instructions for proceeding to work on the road and camp from Dorreen to the Tredway property (the old Knauss property). This property was examined by Mr. Peterson of Vancouver a couple of weeks ago and he went back to Vancouver to report to his associates before proceeding with the work which was to include the erection of a forty-ton mill. Olson was engaged to do all after the work and to install the mill and while awaiting word from the south he spent a few days in Hazelton.

The first plowing match to be held in the Central Interior took place recently in the vicinity of Vanderhoof. It was quite a success and many contestants participated.

New Hazelton Won From the Snappy Nines

New Hazelton ball team journeyed to Smithers last Sunday afternoon and defeated the Snappy Nine team of the railway town. This makes the two teams even so far this year with two wins each. The next time they meet there should be quite a lot of fun. The Smithers people are quite strong for their young boys, and the boys put up a pretty fair game too.

On Sunday New Hazelton went to bat first and with Bert Spooner up he hit a mighty hit over left field and got to third base, but his brother Omer failed to connect and Onkley Senkple went to bat and was caught out on a foul fly. Spooner then tried to steal home and nearly did so, but Gereaud just caught him as he went by. The Smithers scored one in their half, but in the second New Hazelton got two runs and shut the Snappy Nine out. In the 3rd inning each team got two runs and in the fourth New Hazelton was shut out while Smithers took four. New Hazelton came back in the 5th with three runs and from then on the Smithers boys failed to score while New Hazelton took two in the 7th. The final score was 9 to 7.

The Smithers boys were very fortunate in placing their hits in the first five or six innings. It was in the sixth that New Hazelton caught its first fly or even stopped and handled the ball like ball players. But from that on the field got down to business and gave the pitcher good support.

Louis Parent got three three-baggers during the afternoon, Bert Spooner got one 3 bagger, but the rest of the boys only got singles, with one or two doubles.

After failing to connect with grounders several times Jack Smith at second base for New Hazelton made a triple play which retired the Snappy Nine just when they thought they were getting nicely started. There was a man on second and one on first. No one was out. The third Smithers batter hit a nasty line fly that dropped just in front of second but Smith nabbed it before it hit the dirt; he ran to second touching the base and then threw it first and got that runner before he got back to his base. It was a clever play and Smith had it figured out before the third Smithers man went to bat. Bob Moxley of Prince Rupert, but all so well known around Smithers where he spent some of his young days, was behind the pitcher and he gave splendid satisfaction all the way. Bob is acquainted with the game.

But, oh boy! On the base line was Lou Austin officiating. Lou was a former resident of Hazelton and officiated at numerous games in the old town last summer. The New Hazelton boys do not think he has improved his system since he went to Smithers. The game was considered a good exhibition of ball and as long as the people think that there will be a good attendance at the games.

Sandy Gazeley of Smithers, one of wife-away live wires of that place nearly lost an eye the latter part of the week. While driving in his car he got too close to the brush along side the trail and a piece rubbed along the car and into the window and finally into Sandy's eye. While the medical report is that the eye will not be lost, Sandy says it hurts just the same.

Jack Sargent was given a surprise party on Monday night last by many friends. The occasion was his 20th birthday.

Burns Lake in New Hospital Open Saturday

Last Saturday Dr. H. C. Wrinch was a visitor to Burns Lake and there took part in the opening and dedication of the new hospital recently completed.

The new hospital is of fifteen bed capacity and will meet the needs of the Lakes country for some time to come. It is a frame building, finished inside with plaster and decorated with silver stain similar to the Hazelton hospital. The place is hot water heated and is lighted by electricity secured from the public plant operated by A. M. Ruddy. The nurses have their quarters on the second floor of the building, and it is worthy of note that two of the staff are graduates from the Hazelton hospital. Miss Miller and Miss Orr, the latter relieving at present. Miss Hayes is the matron and superintendent.

The new hospital is sponsored by the United Church. Mrs. J. M. Gordon, president of the B. C. branch of the W. M. S. of the United Church, has taken a very active part in getting this hospital established at Burns Lake and has been working on the project for a number of years. In recognition of her great work she was invited to open the institution to the public.

Rev. Mr. Fleming, chairman of the board dedicated the hospital and he received the keys from the contractors.

Speeches were made by Rev. Mr. Lancaster of Vanderhoof, Dr. H. C. Wrinch, Sidney Godwin of the Burns Lake Observer, J. S. Gordon of Vancouver, and school inspector and Inspector of Buildings Brown.

Following the speeches refreshments were served and a very pleasant afternoon was spent.

The new hospital will be a great benefit to Burns Lake and to the entire Lakes Country. It is as modern as it is possible to make it and the nursing staff will be enabled to render the public much better service.

The grounds surrounding the building have been well laid out and in all things connected with the hospital the people of Burns Lake are to be congratulated.

GRACE E. SMITH PASSED AWAY

After a Life Time of Suffering Died Early Thursday Morning—Funeral Friday Afternoon

Miss Grace Elinor Smith, youngest son, passed away early Thursday morning of last week. She was 24 years of age and had been an invalid all her life, requiring constant care night and day. For some time she had been failing in health, but a month ago there was a decided change for the worse and the last few days the end was expected hourly.

The deceased young lady, although a helpless invalid, had a cheerful disposition which won for her the high regard of all who knew her.

The funeral was held on Friday afternoon with services in St. Peter's church conducted by Rev. Mr. Hales of Smithers. The church was crowded with friends of the deceased and of the family, numbers coming from out side points. The floral tributes were wonderful and were banked around the casket. The pall bearers were James Cox, Jack Sargent, Earl Sweet, and Harold Wrinch. Interment took place in the Hazelton cemetery.

Considerable improvements are being made to the Hazelton Golf grounds at Mission Point. Interest in the old game continues high.

Smithers Lost Hazelton Last Sunday 8 to 12

The Smithers ball team (seniors) played Hazelton on Hazelton grounds last Sunday afternoon and the home boys won by a score of 8 to 12. At that the game was considered a good game and the local fans were well satisfied. Cliff Warner was not able to pitch as he had received a nasty blow on right arm and it hurt. Clarence Goodacre was in the box and he did pretty well until the 6th inning when Hazelton scored five runs. The new pitcher did not, however, make much difference as the home boys scored five more runs in the 7th. Up to that time they had only two single runs and it looked like a victory for the winners. For Hazelton Ward Marshall pitched as long as he could, but when Smithers scored three runs in one inning he gave York into the box to finish. Cox went back to his old place in the field during the game.

NEW HAZELTON WON AGAIN

Defeated Hazelton by a Two to Three Score—An extra Inning had to be Played

In one of the closest games played on the local ball field for a long time New Hazelton nosed the old town boys out on Tuesday night by a 2 to 3 score. The game was scheduled for 6.30 and was to be only seven innings, but at the end of the 7th the score was a tie so the 8th inning was played and New Hazelton got Bert Spooner over the home plate while the Hazelton team was shut out.

There was keen excitement from the start to the finish, and it was anyone's game until Spooner scored in the 8th. The Hazelton team has been considerably strengthened by a new third baseman and by playing Cox in the field. For Hazelton the battery was York and Dell Austin and for New Hazelton it was Bert Spooner and William. Al Hall is still nursing a split finger although he is able to play in the field. A. Roy McDonnell was umpire and Don. Capon was base umpire.

MRS SEALY WAS ELECTED

Mrs. J. C. K. Sealy was elected to the Hazelton school board last Saturday night to succeed Mrs. W. W. Anderson whose term had expired. Mr. R. S. Sargent as chairman of the board made quite an elaborate verbal report on the record and the progress of the school. Cooper Wrinch was elected as auditor. It is understood that another meeting will be held in connection with continuing the superior school, building a new school or having a consolidated school at Two Mile to serve the district.

MAY SHIP POLES TO ENGLAND

Olof Hanson was down from Smithers last week looking over some of his cedar camps. He is taking a much more optimistic view of future prospects than he formerly did, although he cannot yet say just when he will start up any of the camps again. But he is getting things lined up so that when the market breaks favorably he will be able to get work under way in quick order. In the meantime he continues to ship a few carloads per week. He also has hopes that in the near future he may be able to ship a boat load of poles now and again to Great Britain.

Thos. Jenkins Died on Friday Heart Trouble

Thomas Jenkins died in the Smithers hospital on Friday last after being a patient there for a week although he had been ill for some little time before going to the hospital. He was about 45 years of age and was a batchelor. The funeral was held on Sunday afternoon with Rev. Mr. Donaldson of the United Church conducting the service. The Canadian Legion and the Elks in charge of the funeral arrangements. Interment took place in the Smithers cemetery. The deceased was well known throughout the northern interior as he has been connected with the B. and B. gang on the C. N. R. and also he has been bridge foreman for the provincial public works department. His last work was the construction of Braun's Island bridge at Terrace.

WILL THERE BE HIGH SCHOOL?

The annual meeting of the New Hazelton school district was held in the school house on Saturday evening last, and after receiving the financial statement Leo Spooner was elected to the board for three years, succeeding W. S. Sargent whose term expired and who declined to stand for re-election. The matter of converting the local school into a superior school was discussed but finally it was decided to get further information as to cost, etc., so the meeting was adjourned for two weeks.

RAY BROKE COLLAR BONE

Ray Cummins of the Royal Bank at Prince Rupert, is now a patient in the Burns Lake hospital suffering from a broken collar bone. Ray has been relieving at the Burns Lake branch of the bank and while motoring his car ran into some loose gravel and turned over. He will be laid up for some time. Many in this vicinity will regret to learn of his accident as Ray has many friends here.

Harold Wrinch was lectured secretary of the Hazelton Community Association last Monday night to succeed H. W. Walker. The building project was delayed further pending a report from the joint committee that is considering the amalgamation of the Horticultural Society and the Community Association.

Miss Ellifson, R.N., of the Hazelton Hospital staff has returned from her summer vacation.

Miss Campbell, R. N., of the Hazelton Hospital, left Monday for Vancouver to spend the next three weeks.

Capt. Mortimer, Indian Agent, will leave on Saturday of this week by car for Vancouver and Victoria where he will spend the next few weeks holidaying.

Magistrate G. V. Storkey has been a patient in the Hazelton Hospital the past few days.

Inspector Cooper of the R. C. M. P. of Vancouver was in the district a few days looking into force affairs and also attending the annual shoot at Telkwa.

The Hazelton Golf Club requests all non-members to apply to the secretary at the drug store for permission to play and also to obtain tickets for the green.

YOU are always sure of Kellogg's Corn Flakes. For 25 years Kellogg's have been the standard of quality.

Kellogg's Corn Flakes are made in modern, sanitary plants ... always open to inspection by visitors. Kellogg's have the finest materials, expert workers; and wonderful machinery it has taken years to perfect. Plus a patented sealed WAX-TITE bag that brings the flakes oven-fresh to your table!

Guaranteed by W. K. Kellogg: "If you do not consider them the finest and freshest corn flakes you ever ate, return the red-and-green package and we will refund your money." Made by Kellogg in London, Ontario.

POULTRY CONDITIONERS

At certain seasons of the year, particularly in the fall and winter, a great many poultry conditioners are upon the market, for which quite often very extravagant claims are made. It is not uncommon to find even the better class of these condiment feeds advertised as being capable of doubling egg production, a claim which, of course, is absurd. Since a large amount of money is spent annually in these stimulants it seemed highly desirable to determine the actual value of these substances. With this object in view an experiment was tried at Ottawa.

The conditioner used was considered to be one of the better type, and, judged by its ingredients, to have been more or less scientifically compounded. Upon analysis the ingredients were found

to be as stated with the exception that two ingredients making up 70 per cent of the total were not even mentioned, one of which contained the same stimulant as an ingredient definitely stated in the advertising matter not to be present in the mixture. This condiment was fed exactly according to the manufacturer's directions to two pens of birds, one upon a whole grain, skim milk ration, and the other upon our standard basal ration. Another pen acted as control and received the standard basal ration but without the condiment feed. Mortality was quite high in all pens but somewhat higher in the condiment fed pens. Production was slightly higher in the condiment fed pens but not significantly so. On the other hand the control pen had a greater body weight to maintain from the start and in spite of this showed a gain in body weight as against a similar loss in each of the condiment fed pens. The efficiency of use of feed was practically the same for all pens. The net result of this test was that it appeared that there was no justification for using this product to increase egg production since feed consumption, efficiency of use of feed and egg production were not increased.

I must be born in mind that the condiment used was one of the best on the market, consequently it might be expected that poorer results would be obtained from the bulk of such condiments. The sale of these feeds is very large and it can be readily appreciated that much hard earned money goes to the purchase of such product with apparently no return whatever. At the same time, when the margin between the cost of production and returns from eggs is extremely small the expenditure of money for products of this nature is hardly justified.

pany's property.

Final figures of butter production in Alberta for 1931 amount to 22,957,922 pounds, which is more than 600,000 pounds above the previous highest year's record for the province. Closely associated with butter production is a movement inaugurated by the Federal and Provincial Departments of Agriculture to encourage farmers to enlarge their forage crop areas.

Major "Bill" McGeehan, one of America's best known columnists, and Lionel Hitchman, veteran defence man of Boston Bruins, landed a 19 and a 30 pounder salmon from New Brunswick waters respectively in May. The Major got his fish with a four-ounce trout rod on the Cain's River; Hitchman was fishing at Hart's Pool near Fredericton on the Saint John River.

John Cudahy, of Milwaukee, hunting across the Great Divide near Banff, and faced by a furiously charging wounded grizzly almost within striking distance and with but one cartridge left in his rifle, coolly stood his ground and dropped the monster at his feet. Mr. Cudahy has hunted in India, Africa and Alaska, but said he had never had the thrills he experienced on this recent grizzly hunt.

Success of the bargain trips over week-ends and holidays which the Canadian Pacific has put into effect this year was further attested by the great popularity enjoyed during the recent Victoria Day holiday and in week-ends following. To take one large centre—Montreal—the city was literally invaded by the great influx of visitors from eastern Canada and the United States and other big Canadian cities report similar conditions.

Brother officers of the Canadian Pacific Railway, representatives of transportation systems in Canada and the United States, members of the Masonic Order and of Rotary and sorrowing friends from virtually all walks of life united in an impressive tribute to the late George A. Walton, general passenger agent of the railway at his funeral in Montreal recently. The remains were taken to Winnipeg where burial took place in the Elmwood Cemetery with His Honor James D. McGregor, Lieutenant-Governor of Manitoba, Mayor Ralph H. Webb, of Winnipeg, and many officers of the company in attendance. His Grace Archbishop Matheson, assisted by the Rev. H. S. Reed, of St. Luke's Anglican Church, conducted the funeral service. (847)

About Readers And Writers of Advertisements

ITS A VERY OLD STORY—the story of the man who put in a great daily newspaper an inconspicuous 2-line advertisement as follows:—

Cats Wanted—\$1.00 each, before
9 a.m. 16 Major street.

He put in this advertisement to prove to a doubting friend that the public reads advertisements.

You can imagine the doubter's consternation when he saw next morning a streetful of men, women and children, each with a cat.

Whatever you yourself may do in regard to the reading of advertisements, know this: Everything printed in a newspaper gets read, and there are many who read every line—news matter and advertisements—those with lots of time and curiosity.

The company or firm with something to sell—something which thousands of persons can buy—wouldn't be very wise if it published an inconspicuous advertisement. The right thing for it to do is to crash in on your attention, by publishing an advertisement which everybody is likely to see.

Its job is to make you—a normal man or woman—see its advertisement and to make it so interesting that you'll read it. Then the advertisement must be persuasive. Also it should incite you to take action.

Of course some advertisements—those of local retailers—may quite properly give prominence to prices. Their job is to direct you, rather than to inform or persuade you; and to stir you up to quick action.

The writing, designing and illustrating of advertisements intended to catch attention, intrigue interest, convey information, be convincing, breed desire, for what is advertised, and incite the reader to purchase are highly specialized jobs.

If you want to know just how difficult is the job of writing an advertisement which would get 100 marks from a competent judge try to write one—about a vacuum cleaner, a motor car, a writing ink, a child's shoe, or anything else, limiting yourself to 300 words or less.

Terrace Notes

W. H. Poe of Chicago, who has made several visits to Lakelse is erecting a very beautiful summer home near the Lodge. This attractive bungalow is being built for comfort as well as the real beauty spot. It is of log with a stone fire place. Water from Lakelse Hot spring is piped into the house and the home equipment will include baths and other conveniences. Mr. Poe is a Lakelse booster and says he has yet to find a more beautiful spot to live in. The north end of the lake is enjoying a real boom; the new bath house is all completed with seven tubs, a lounge room and there are several extra bed rooms. Mr. Bruce Johnstone, manager of Lakelse Lodge anticipates a busy season.

J. B. Agar has rented his bungalow at Lakelse Lake to Dr. and Mrs. Carson of Prince Rupert, who, with his family is expected on Saturday to put in several weeks. The Doctor hopes to benefit his health while here.

D. Owens of Vancouver was in town

on Monday.

Mrs. F. E. Fowler of Smithers who has been visiting old Terrace friends spent a few days at Lakelse Lake the guest of Mrs. Geo. Little. Mrs. D. Munro was also a guest of Mr. and Mrs. Little the end of the week.

Mrs. H. L. McKenney and family have taken up residence at their summer home at Lakelse Lake. Mrs. T. E. Brooks was a guest there over the end of the week.

Mr. and Mrs. Thos. Brooks are spending a week at the summer home of the daughter, Mrs. E. T. Kenney.

Lorne and Mrs. Kenney, Prince Geo. are guests of E. T. and Mrs. Kenney for a few weeks.

Little Lawrence, youngest son of S. N. and Mrs. Kirkaldy fell from a table at their summer cottage at Lakelse on Thursday morning and fractured his shoulder bone.

Ralph Cory returned to town on Sunday after a couple of weeks spent at Lakelse.

John Hagan's new speed boat was given its trial run on Sunday afternoon. It clocked 30 miles per hour and is admitted to be the fastest boat on the lake.

The annual meeting of the Kitsumgallum school district was held on Saturday night when the reports for the year were presented. E. T. Kenney was re-elected to a three year term.

The Lakelse Valley school district at its annual meeting on Saturday night elected Will Robinson to the board for another three years and J. D. Jones was elected auditor.

Rain is still holding up the haying in this part of the district.

John DeKergommeaux gave a dance to celebrate the opening of his new garage on Friday night. There was a good crowd present. The Terrace orchestra furnished the music.

Mr. and Mrs. Adam were guests at the Philbert Hotel this week. They have just come down from Dawson and are planning to locate in a more moderate climate. Terrace seems to have taken their fancy. Mr. Adam has been in the Yukon since 1898.

The Orange Lodge held the annual church parade last Sunday evening under the direction of Marshall H. A. Swain and was led by Master C. Cuthers while F. E. Gibbs was standard bearer. Prof. Barfoot of Emanuel college, Saskatoon, preached an appropriate sermon in the Anglican church.

J. Smith of Usk was in town on Monday last.

Cons. McKenney was down to the coast over the week end.

L. E. Downing of Shames was in Terrace on Tuesday.

L. J. North of Prince Rupert arrived on Wednesday of last week.

W. O. Fulton spent the week end with his family at the lake.

Mr. Fredricks of Kallum Lake was in town the middle of the week.

The commissioners of the municipality at a meeting on July 5th put through a herd by-law and as soon as it is ratified by Victoria it will immediately be enforced. Then all stray animals will be put in a pound of which it is expected S. Wilkinson will be the keeper.

Michaud Bros. found that during the night comparatively recently some person or persons had paid a visit to the strawberry patch and pretty well cleaned it up of ripe berries. This is a rather serious matter and the owners are endeavoring to ascertain who the parties are.

Wild raspberries are ripening now and quite a number of patches have been located.

G. Bverage, manager of the local bank, returned Saturday afternoon after his vacation.

Remo farmers institute are putting on their annual strawberry social on Thursday. That point is becoming a little more firmly established each year as a major point for berries, and the growers take great pride in their produce. The social is a very popular event for the people of Terrace and of other parts of the district. There will be a big attendance this year as the road from town is now in good shape.

Splendid Empire Achievements

An enterprising Sydney, N.S.W., newspaper, in order to convey to its readers the magnitude of the huge new Harbour Bridge recently constructed at the Australian port, printed the composite picture shown above for the enlightenment of its readers.

Thrilled by descriptive stories of the new Canadian Pacific liner "Empress of Britain" that appeared in Australian papers when that giant liner was sped on its maiden voyage last year by H.R.H. the Prince of Wales, Australians have taken as proud an interest in the "Empress of Britain" as Canadians, and the picture, labelled "Empire Achievements" paid tribute to the enterprise of the Dominion and the Commonwealth. Underneath was the legend, "Sydney Harbor Bridge, opened March, 1932. Length of Arch Span 1,650 feet, breadth 160 feet, weight of arch steelwork 38,000 tons. "Empress of Britain," in service May 1931, length 760 feet 6 inches, breadth 97½ feet, gross registered tonnage 42,500."

The "Empress of Britain" on her voyage from Canada June 16th, 1932, justified Australia's faith in her as an Empire achievement by creating the magnificent new record, Father Point to Cherbourg, in four days, seven hours, 53 minutes.

Tight Fit But Paint Untouched

Residents of Panama Canal Zone had their biggest thrill since the "big ditch" was finished when the Canadian Pacific liner "Empress of Britain" passed through the canal in April. As the largest vessel ever to navigate the canal the Empress received unusual attention. In fact as far as canal officials were concerned, she was viewed with furrowed brows. The lock-keepers, if they wanted to, could have jumped aboard her, so tightly did she fit. Furrowed brows marked Chief Officer, W. G. Busk-Wood, R.N.R., of the Empress of Britain. As the "Mate" he is responsible for her gleaming white painted sides

and bets were freely offered that he would have to put men over the side when she reached Cristobal to re-paint. Scotchmen amongst the 481 passengers covered every bet—they had faith in the Scottish caution of Commodore R. G. Latta, her commander. "It was a tight fit, but never a scratch of paint!"

The photograph shows the Empress of Britain entering the Pedro Miguel lock. Her passengers crowded the decks to watch the spectacle and so interesting was this feat of navigation that Chief Steward Frank Moss complained that for the first time in four and a half months they forgot to eat!

Here and There

The Nova Scotia Dairyman's Association will hold their next annual convention in 1933 at the Cornwallis Inn, Kentville, N.S.

Shipments of celery to Canada this year from Bermuda totalled 25,000 crates in contrast to last year when the shipments were virtually negligible.

Eastern Steamship Lines, Inc., had heavy traffic on an excursion from New York to Nova Scotia on the occasion of the first trip in June of the S.S. Acadia from New York to Yarmouth, N.S.

Railroad transportation is an essential economic function on this continent and given reasonably free rein should speedily show good recovery using it to increase buying of materials and employment of labor, says the Greenville (S.C.) News editorially.

Total production of honey in Canada in 1931 amounted to 27,867,397 lbs. valued at \$2,058,094. Ontario led the Dominion with a production of 12,000,000 lbs. with Manitoba second with 7,367,375 lbs., and Quebec third with 5,623,400 lbs.

Ten thousand rainbow trout fingerlings have been deposited in the French River in June, following 7,500 fingerlings deposited last year. The previous experiment was so satisfactory that the present action has been taken and if success still attends these efforts, the French River Bungalow Camp will have added rainbow trout to its already well diversified angling attractions.

Bob Davis, globe-trotting New York Sun columnist, is back in his beloved British Columbia, having recently arrived from Honolulu aboard the Empress of Canada, of the Canadian Pacific fleet. He proposes to spend some time in fishing expeditions both in the province and also in the Rockies where he will meet Irvin S. Cobb and Courtney Riley Cooper, also famous American publicists.

Tourists spent almost one million dollars for every working day in Canada last year, a sum virtually equal to \$280,000,000, the Cannington, Ontario, Gleaner, points out and claims that this puts it into the class of big business which should be carefully fostered. Commenting on the same subject, the Nelson, B.C., News states that there are numbers of small towns throughout Canada which have not yet realized what the tourist business could do for them.

Evidence of the growing popularity of the Canadian Pacific Railway low rate bargain return trips, inaugurated this year, was again furnished by the success of the Quebec Province and Montreal excursion to Toronto and Niagara Falls, June 17, when no fewer than 2,500 Quebecers took the trip in four specials on the Friday, returning the following Sunday night. His Honor the Mayor of Toronto issued a hearty welcome to those making the trip.

The thirty-two business and professional men and women from the British Isles now touring British Columbia under provincial government auspices found Victoria much to their liking and quite up to advance notices of being the most "English" city on this side of the Atlantic. They were particularly impressed by the beauty of the formal gardens at some of the homes they inspected and specially with the famous Butchart Gardens. They are travelling by Canadian Pacific Railway. (553)

Douglas Lay, resident mining engineer, left last Saturday for McConnell Creek to make a report for the department of mines. He travelled to Burns Lake and from there went in by plane.

While it is recognized that the hay crop in the western end of the Bulkley Valley is going to be light, it is reported that from about Huston east there is going to be practically no hay and the prospects for grain are also poor. There has been little rain east this spring.

Magistrate G. V. Storkey has been a patient in the Hazelton Hospital the past few days.

Doings Around Home

Of interest to you and your friends

Rev. Redman and family, Don. Cupon and Mr. and Mrs. Allen of Rupert motored to Smithers on Wednesday of this week and spent the day with friends.

At a meeting of the joint committee appointed by the Hazelton Community Association and the Hazelton Horticultural Society held on Tuesday night it was decided to amalgamate the two associations, and that the amalgamation take effect at once. This will be reported back to the two associations and immediate steps will be taken to complete the move. Both associations are working for the welfare of the town and both will be keenly interested in the new hall. By the joining of forces more effective work can be done and with much less effort.

Mr. and Mrs. Dennis Allen and their children leave Thursday for home.

Indians from Morrice town and also from other points gathered at Hugwilget the end of last week and the first of this week for their annual feasting and social time.

Mrs. Wm. Grant has so far recovered that she was able to leave the hospital on Monday afternoon.

A son was born to Mr. and Mrs. Chas. McIntosh in the Hazelton Hospital on July 1st.

Mrs. Jack Russell and family are on a holiday, he guests of Mr. and Mrs. Wicks in the Bulkley Valley.

Mr. and Mrs. J. M. Gordon of Vancouver are expected to visit the Hazelton Hospital, arriving there on Thursday morning. They are both interested in hospital work and in the United Church.

Peter Smith spent a day or two at his home here before going to Skeena City, near Prince Rupert.

The water in the Bulkley river has been so low the last few days that the Indians have not been getting as many fish as usual.

Recent rains have made a wonderful difference to the local gardens. It is favorable now for the usual big crop.

Miss Gretchen Johnson of Victoria is a guest of her sister, Mrs. L. I. Wrinch.

It is reported that Cooper H. Wrinch and T. B. Campbell have purchased a couple of lots each at Two Mile and intend to erect homes there in the near future.

Mitchell Newman of Queen Charlotte Islands has arrived at his home here for the summer vacation.

W. E. Ditchburn of Victoria, for a great many years Inspector of Indian Agencies in British Columbia, has retired from the service on pension. Mr. Ditchburn is well known in the north country where he has paid official visits a number of times.

Ralph Smith of Prince Rupert who has been a pneumonia sufferer for a number of weeks has sufficiently recovered to travel to Telkwa where he will be a guest of his brother T. J. Smith until he is able to resume work.

At the meeting of the Hazelton Community Association last week there was a committee appointed to work with a committee from the Horticultural Society to bring about the amalgamation of the two societies.

CARD OF THANKS

Mrs. C. V. Smith and Mr. and Mrs. Myros wish to express their appreciation to all those who showed their sympathy for the loss of their beloved daughter and sister.

The Hazelton girls soft ball team defeated the New Hazelton girls again last Saturday evening and on the New Hazelton grounds. As usual the local girls started off with pep and at one time lead by a score of 16 to 6. But just as usual they fell down and allowed the visitors to catch up and pass them. The final score was 21 to 24.

The New Hazelton base ball team has been asked to enter the contest at Telkwa barbecue this year. The boys plan on being there.

If early promise is fulfilled, the Annapolis Valley should this year produce an even larger yield of apples than in 1931 when the total crop was close to a million, and three-quarters barrels, is the opinion of leading fruit men of Kentville, N.S. The bloom this year lasted over ten days and attracted visitors by the thousand from Eastern Canada and the United States.

Miss Constance Regan, Middleburg, Va., established a record for women anglers on the Tobique River, New Brunswick, recently, when she took a 27½ lb. Atlantic silver salmon, the largest ever caught with a fly by a woman on that river. The record salmon taken in those waters by a male angler weighed 33¼ lbs.

Canadian Pacific standard time is standard time the world over. Prior to 1883, every town and city had its own local time, based on the sun, but in that year the suggestion of Sir Sandford Fleming, chief engineer of the Canadian Pacific Railway, that the world should be divided into 24 sections, one for each hour of the day, and that time within each of these areas should be standard, was adopted all over Canada and the United States. In 1884 the plan was also adopted in Europe after a conference held at Washington.

Gilbert Miller, architect, of Youngstown, O., has a grouch against windows and doors in office buildings and summer homes. He found both too narrow to admit a moose head with an antler spread of five feet five inches taken from a monster he shot near St. Jovite last season. "It looks," he wrote to A. O. Seymour, general tourist agent, Canadian Pacific Railway, "as though both the head and myself will end up in the garage." But that is the kind of trophy to be got in the forests of Quebec. Big heads and lots of them. (849)

IN THE SUPREME COURT OF BRITISH COLUMBIA

In Probate

In the matter of the estate of Joseph Onesime M. Dechene, Deceased

and

IN THE MATTER OF THE ADMINISTRATION ACT

Take notice that by order of His Honor F. McB. Young, local judge of the Supreme Court of British Columbia dated the 21st day of June, A.D., 1932 I was appointed administrator of the estate of the said Joseph Onesime M. Dechene, deceased. All parties having claims against the above estate are hereby requested to forward same to me properly verified on or before the 9th day of August, A.D., 1932, and all parties indebted to the said estate are required to pay the amount of their indebtedness to me forthwith. Dated at Smithers, B. C., this 28th day of June, A.D., 1932.

H. B. Campbell
